

This NEMA 3R enclosure is designed for MOT Ontario to house 4 large batteries at an intersection controller. It is another variation to the UPS family of control cabinets for applications where a narrower width is required.

Features

- 304 (#4) stainless or marine-grade aluminum construction
- Aluminum enclosures are powder-coated ASA 61 Grey
- NEMA 3R rated
- Padlockable 3-point latch mechanism on door
- Stainless steel piano hinge
- Cross broke roof with drip-lip
- Filtered louvers
- Pole or base mount
- 2 shelved designed for large batteries

Specifications

- ETL certified to applicable CSA and UL standards
- MOT Ontario certified
- 1/8" marine-grade aluminum construction

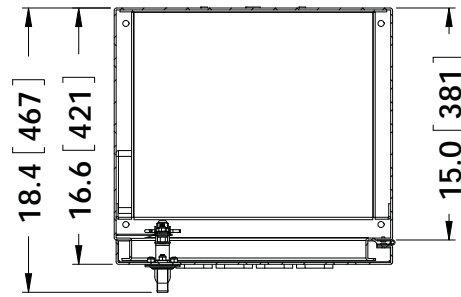

Optional Components

- Pole mount brackets
- Base mount brackets
- Custom powder coat colours

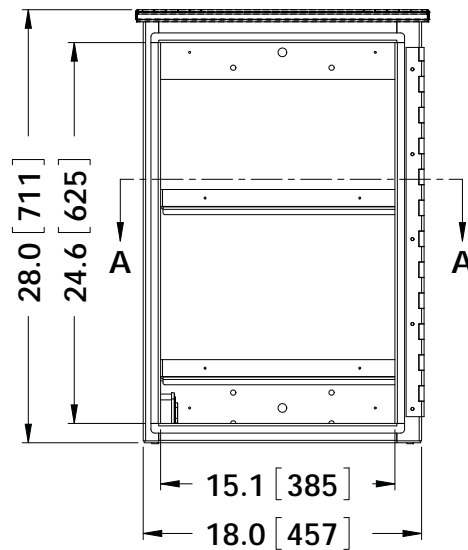

Benefits

This cabinet can accommodate a UPS and up to 4 batteries, and its shelves make it a handy general-purpose weatherproof cabinet for other applications as well. It is usually powder coated ASA-61 grey but additional colours are available.
